EDUCATION

- **B.Tech in Computer Science and Engineering (Artificial Intelligence and Machine Learning)** 2021-25
Gandhi Engineering College, BPUT, Bhubaneswar CGPA: 8.32
- **10th, ICSE**
Madonna English School, Darbhanga, Bihar 90.5%
- **12th, CBSE**
MGSS, Darbhanga, Bihar 77%

PERSONAL PROJECTS

lively 🌐

A web App which lists all the users currently Online, and let's you video chat with them.

- Implemented socket middleware which makes the socket connection accessible only to authenticated users.
- Dynamic updation of the users in memory currently connected via socket to show currently Online users.
- Implemented WebRTC for video calling functionality.

A collaborative coding platform 🌐

A multi-feature coding platform

- Implemented project functionality to create simple web apps with commands and preview the result.
- deploy feature lets user deploy any html content on the internet with a single click, and offers the link to user.
- Implemented socket.io to connect users in same question page to collaboratively solve questions in real time.

User tracking webpage 🌐

A web App for letting users know the ways they can be tracked

- Integrated ip tracking.
- Implemented webcam, microphone, screen sharing, and location access.
- Rendered the live changes on the client side
- More to be added as project grows

Few other projects 🌐

Some of my other projects

- E-Commerce Project with features like, user authentication, cart and, checkout.
- Code converter for converting code from one language to another.
- A multipurpose discord bot

EXPERIENCE

- **SDE Intern, Thyke** July-Oct 2024
– Summarized past chats and saved for future reference, leading to a growth in user satisfaction by more than 30%
